

MILPERSMAN 1306-1210
DISPOSITION AND ACCOUNTING OF PERSONNEL UPON
COMPLETION OF LIMITED DUTY (LIMDU)

Responsible Office	NAVPERSCOM (PERS-821)	Phone:	DSN	882-3229
			COM	(901) 874-3229
			FAX	882-2622

1. **Purpose.** This article provides procedures for disposition and accounting of personnel upon completion of limited duty (LIMDU).

2. **Accounting Procedures.** Once found fit for duty by the attending physician, the Personnel Support Detachment (PERSUPPET) or personnel office shall take action as follows:

a. **For members whose accounting category code (ACC) was changed from 100 to 105:**

(1) If projected rotation date (PRD) is more than 90 days beyond their temporary limited duty (TLD) period, change ACC to 100.

(2) If PRD is less than 90 days beyond their TLD period, change ACC to 100 and submit a message to the assignment control authority (ACA) indicating the member's availability for reassignment at PRD.

(3) If the PRD was adjusted to complete the period of TLD, submit a class YJ availability report, provided member passed operational suitability screening.

b. **For members ordered to a new duty station for LIMDU (i.e., permanent change of station (PCS) orders issued by the ACA), and**

(1) member is not pending a "Perform to Serve" request, submit a class YJ availability report, provided member passed operational suitability screening (if required).

(2) member submits or is pending a "Perform to Serve" request, retain in ACC 105 and track to ensure timely response to "Perform to Serve" request. Upon receipt, take appropriate action.

c. **Members authorized to proceed home awaiting orders per MILPERSMAN 1910-900, to await Physical Evaluation Board (PEB) proceedings, will be accounted for in ACC 381.**

d. **For enlisted members found fit for duty and who are in receipt of approved retirement/Fleet Reserve dates, or are beyond high year tenure (HYT), no availability is required. Change ACC to 100 and contact Navy Personnel Command (NAVPERSCOM), Disability Retirement/Limited Duty Branch (PERS-821) regarding execution of previously approved retirement or Fleet Reserve authorization.**

3. **Assignment of Members found Fit for Duty.** The type duty to which members will be assigned by the ACA after being found fit for duty by a medical board will be determined as follows:

a. **Type Duty Code "1" or "6."** Members being assigned to or are currently on Type Duty Code "1" or "6" who are released from LIMDU status will have the period of LIMDU applied to their normal shore tour (NST).

(1) Whatever time remains on a normal shore tour (NST) after the LIMDU period has been applied will be completed at the current duty station. If no time is remaining on NST, the member will be assigned to sea duty.

(2) The decision logic table (Exhibit 1) with availability month as basis for computation pertains.

b. **Type Duty Code "2," "3," or "4."**

(1) Members who were on Type Duty Code "2," "3," or "4" and were assigned ashore for the period of TLD will normally be assigned per the Exhibit 2 table, using availability month as basis for computation.

(2) The time member starts LIMDU until the member is found fit for duty is considered **idle time** and will not be used in computation of cumulative sea time.

4. **Early Separation.** Approval of early separation will be contingent upon overall Navy manning, manning of specific ratings and Navy Enlisted Classifications (NECs), the availability of billets, and existing PCS funding constraints.

a. **Expiration of Active Obligated Service (EAOS) within 90 Days.** Members whose EAOS is within 90 days, and do not desire to

reenlist, may be separated within 7 days of being found fit for full duty per MILPERSMAN 1910-102.

b. **EAOS more than 90 Days, but within 1 Year.** Members whose EAOS is more than 90 days, but within 1 year, may submit a request for early separation to NAVPERSCOM.

EXHIBIT 1

DECISION LOGIC TABLE FOR ASSIGNMENT OF MEMBERS
FOUND FIT FOR FULL DUTY AFTER ASSIGNMENT TO LIMDU
FROM TYPE DUTY CODE "1" AND "6"

Rule	If months remaining on NST ...	member will ...	and PRD set ...
A	is greater than zero	remain at current duty station,	to complete NST.
B	is less than zero (no time remaining)	be assigned to sea duty,	to prescribed sea tour (PST).

EXHIBIT 2

DECISION LOGIC TABLE FOR ASSIGNMENT OF MEMBERS
FOUND FIT FOR FULL DUTY AFTER ASSIGNMENT TO LIMDU
FROM TYPE DUTY CODE "2," "3," OR "4"

Rule	If member has ...	member will be assigned to ...	with PRD established ...	provided ...
A	0-6 months remaining on PST,	shore duty	to NST.	See notes 1 and 2.
B	greater than 6 months remaining on PST,	sea duty	to complete PST. See notes 1 and 2.	

Note 1: Career members will be assigned without regard to obligated service (OBLISERV).

Note 2: Non-career members must have, or agree to acquire, a minimum 24 months OBLISERV to be eligible for assignment ashore. Non-career members who do not desire to acquire necessary OBLISERV will remain at current duty station and/or may request early separation.

Example (1): Members who have 12 months remaining on PST will be assigned to a 24-month tour.

Example (2): Members who have 9 months remaining on PST will be required to complete a 21-month tour.
